Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	5 Marks

Solution Architecture Diagram:

Provide a high-level visual representation of your solution's architecture. Use the structural layout below as a template to map out your Presentation Layer, Application Layer, and Data Layer. Fill in the specific technologies and components for your project directly into the boxes to create your architectural diagram.

Component Description Table

Component Name	Description / Role in Architecture	Technologies Used
<i>Presentation layer</i>	User interface for entering country details, viewing HDI predictions, charts, and reports User interface for entering country details, viewing HDI predictions, charts, and reports	HTML, CSS, JavaScript, Flask
API Gateway	Handles requests between the user interface and backend services	Flask REST API
Machine Learning Model	Predicts the Human Development Index based on socio-economic indicators	Random Forest / XGBoost / Linear Regression
Database	Stores user data, prediction history, datasets, and reports	SQLite or MySQL
