

Customer Journey Map

Phase of Journey	Stage 1	Stage 2	Stage 3
Actions <i>What does the customer do?</i>	• Open the application. • Select a country or enter HDI-related values. • Submit the input.	• System validates the input. • ML model processes the data. • Prediction is generated.	• View predicted HDI value/class. • Analyze charts and graphs. • Download or save the report.
Touchpoint <i>What part of the service do they interact with?</i>	• Home page • Input form • Country selection	• Prediction button • Processing screen • ML model	• Results page • Dashboard • Visualization section
Customer Thought <i>What is the customer thinking?</i>	• "Is my input correct?" • "Will this be easy to use?"	• "How accurate will the prediction be?" • "How long will it take?"	• "What does this prediction mean?" • "Can I use this information for analysis?"

Customer Feeling <i>What is the customer feeling?</i>	Curious and hopeful	Interested and confident	Satisfied and informed
---	---------------------	--------------------------	------------------------

Date	04 July 2026
Team ID	
Project Name	A Comprehensive Measure of Well-Being
Maximum Marks	2 Marks

Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Process Ownership <i>Who is in the lead on this?</i>	User	Machine Learning System / Backend	System Dashboard / User
Opportunities <i>How can we improve this stage?</i>	• Improve UI design. • Add input validation. • Provide sample data.	• Reduce prediction time. • Improve model accuracy • Show progress indicator.	• Add downloadable PDF reports. • Provide detailed explanations. • Include comparison charts and recommendations.
